

Butter-Plus™ E

Butter-Plus™ is a new Natural Structured Butter Complex™, designed to provide effective barrier properties, combined with great moisturization and excellent emolliency. It is a soft and creamy paste, that begins to liquefy on skin contact, its melt profile provides outstanding spread and play time with excellent skin feel, without greasiness. Butter-Plus™ is also an excellent delivery system for incorporating essential oils into skincare preparations, providing extended stability, and aids in fragrance longevity. It's an elegant natural, all vegetable alternative to conventional types of moisturizers for a wide range of skin care, and sun care applications.
