

Technical Data Sheet

ESSACHEM® SOW

INCI: Stearyl Olivatate,

Natural Sensory Complex

ESSACHEM® SOW is a, natural based ester complex derived from the esterification of the mixed natural acids obtained from the olive seed, a solid which will liquefy on the skin; leaving a soft silky after feel. This natural complex is ideal for hand and body applications.

Suggested Applications & Recommended Use Levels

| <u>APPLICATION</u> | <u>USE LEVELS</u> |
|--------------------|-------------------|
| Body Wash | 3.00 - 5.00% |
| Body Care | 4.00 - 7.00% |
| Lip Care | 6.00 - 8.00% |
| Hair Care | 5.00 - 8.00% |

The **ESSACHEM® SOW** is a natural based ester complex designed to offer exceptional sensory properties for skin and hair. The **ESSACHEM® SOW** will liquefy on contact with the skin delivering a soft, natural transition of spread. This natural complex will enhance the moisturizing properties while delivering a long-lasting, non-tacky after feel that will provide protection to the skin., used in emulsion systems, lip care and body wash formulations.

ESSACHEM® SOW is your ideal, natural sensory and structuring additive for lip and body applications.
