This luxurious serum was designed to remove and prevent blackheads. Formulated with **ALPHAVELVETY**, this Amazonic active, exclusive to Citróleo Group, promotes the softening of blackheads, facilitating their removal. Meanwhile, **ANDIROBA OIL** has a calming and anti-inflammatory effect in the region, remediating the stress on the skin generated by the extraction of blackheads. In addition, the exclusive active **ALPHASHIELD** treats the region to reduce oiliness and prevent the growth of organisms responsible for the emergence of blackheads. Finally, the **BABASSU OIL** present in this formulation guarantees greater penetration for the other actives, in addition to a soft touch and quick absorption by the skin, ensuring that the final effect of the product is light and free of oiliness.
