

## Malibu Coffee Peeling

Everyone wants to have baby soft skin after exfoliation. This natural scrub with coffee and coconut milk makes it possible. Due the coffee and carrot juice, dead skin cells are gently removed from the skin and the beta-carotene helps to reduce the skin's aging process.

The coconut milk provides valuable oils for a velvety soft skin and provides long-lasting moisture which creates a natural glow.

| Phase | Tradename                  | INCI Name                                  | COSMOS | %    |
|-------|----------------------------|--|--------|------|
| A     | Coconut Milk               | Cocos Nucifera Fruit Juice                 | Yes    | 70.8 |
| A     | Carrot Juice               | Daucus Carota Sativa Extract               | Yes    | 15.0 |
| A     | Ground Coffee Beans        | Coffea Arabica Seed Powder                 | Yes    | 7.0  |
| A     | Evicide® G 5 eco           | Pentylene Glycol                           | Yes    | 5.0  |
| A     | Evicide® levulinate S      | Aqua, Sodium Levulinate, Potassium Sorbate | Yes    | 2.0  |
| B     | Evicare® aquatex 14        | Xanthan Gum                                | Yes    | 0.2  |
| C     | Citric Acid (10% Solution) | Aqua, Citric Acid                          | Yes    | q.s. |

### Manufacturing procedure:

Mix all components from phase A together until a homogeneous liquid is obtained, now slowly add phase B and let the mixture stir for another 20 min. Adjust the pH value gradually to 5.0 with phase C.
